It's that time again! I need your help to continue to do what I do - Spay and Neuter community cats and find fosters for the friendlies. A local business here in Baytown has a colony of around 15 cats they have started caring for by feeding them and providing shelter. However, there is a RV park near by the business where the cats also wonder off to. The residents at the RV park aren't very happy with the cats but have expressed if they are fixed and the population stops g... [See More](#)

Franklin, Tennessee 37064

2nd Chance 4 Pets is an all-volunteer, non-profit 501(c)(3) advocacy organization. We are not a rescue group and we are unable to rehome pets. Our mission is to reduce the number of pets unnecessarily euthanized each year due to the death or incapacity of the human companions who care for them. We provide free resources to ensure that pets will always receive care, even if they outlive their humans.

[2nd Chance 4 Pets Website](#)

[3R Rescue, Inc.](#)

Our mission is to Rescue, Rehabilitate, and Re-home animals in need of a second chance. We work with over-crowded, under-sourced and many times rural shelters with high euthanasia rates to save dogs that would have little or no chance for adoption in their local geographic area. We rescue dogs of many shapes and sizes with wonderful hearts, personalities and love to give.

[4 Luv Of Dog Rescue](#)

4 Luv Of Dog Rescue is dedicated to rescuing homeless and unwanted animals from animal pounds, shelters and people/owners who can no longer provide proper care for the animals; to provide those animals with proper and needed veterinary care, food, shelter and socialization; to find responsible, safe and loving homes to adopt these rescued animals. We do not discriminate based on breed,

Caring for community cats

Our focus is on felines and we need your help. The most popular furry companion animal in America is now the cat. There are 86.4 million pet felines in our country. However, sometimes people's love of the feline does not translate when cats end up homeless.

Roughly 70 percent of the cats who end up at shelters are killed. Of those, most are stray and free-roaming, or as we like to call them, community cats. The goal of Best Friends' cat initiatives is to end the killing by keeping cats safe and out of shelters.

Trap-neuter-return (TNR) has proven to be the only long-term solution to humanely control cat populations. Implementing TNR programs and relocating at-risk community cats help keep cats out of the shelter system.
